SAFETY POINTS FOR REWIREABLE/MOULDED PLUG

The main lead of this appliance is fitted with a BS1363A plug.

If your socket outlet is not suitable for the plug, then the plug must be removed (cut off if it is a moulded plug), the flexible cord insulation should be stripped back as appropriate and a suitable 3 pin plug fitted.

Warning: Dispose of a plug that has been cut from the power supply cord, as such a plug is hazardous if inserted in a live 13A socket outlet elsewhere in the house

Should the fuse need to be replaced an ASTA marked fuse, approved to BS1362, of the same rating must be used.

Always replace the fuse cover after fitting a fuse.

The plug must NOT be used if the cover is omitted or lost until a replacement is obtained - make certain that only the correct fuse cover is used and fitted.

For plugs with a detachable fuse cover the replacement must be the same as the colour insert in the base of the plug, or as directed by the embossed wording on the base of the plug.

If the detachable fuse cover is lost a replacement may be purchased from the Rowenta Service Centre (see enclosed Service Information leaflet). Information for supply may also be obtained from the pluq manufacturer.

WIRING INSTRUCTIONS (FOR U.K. ONLY).

Warning. This appliance must be earthed. Important

The wires in this mains lead are coloured in accordance with the following code-Green and Yellow: Earth - Blue: Neutral - Brown: Live. As the colours of the wires of the mains lead of this appliance may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:

The wire which is coloured green-and-yellow must be connected to the terminal in the plug which is marked with the letter E or by the earth symbol $\frac{1}{2}$ or coloured green or green-and-yellow. The wire which is coloured brown must be connected to the terminal which is marked with the letter L or coloured red. The wire which is coloured blue must be connected to the terminal which is marked with the letter N or coloured black. If connecting to a BS 1363 A plug a 3 Amp fuse must be used.
